Software and Internet Technologies

Bachelor's Degree

Technical University Varna

Sep 2024 – Ongoing

Software and Hardware Technologies

Yordan Yovkov Secondary School

Sep 2012 - May 2024

ReactJS

SoftUni

Oct 2023 – Jan 2024

PROJECTS

Aether

Aether is a live online platform where people can join communities based on their interests to share and discuss content. Users can create posts, rate them, and even comment and have discussions on them.

See Live   **Source Code**

Bobby's Bakery

Bobby's Bakery website is a complete platform designed to make running a bakery easier. It's a personal assignment project, made for a relative.
